

## NFPA 1001 – Firefighter Level II

### Aim:

The aim of the NFPA 1001 Firefighter Level II course is to provide students with the knowledge and skills to meet the NFPA Standard for Firefighter Professional Qualifications Firefighter II.

### Course Overview:

At the end of the course, the student will be able to demonstrate the knowledge, skills and understanding as defined in Chapter 6 of NFPA Standard 1001 for Professional Qualifications Firefighter II, which includes the following subjects:

- Self-Contained Breathing apparatus (SCBA) and Personal Protective Equipment (PPE).
- General vehicle safety.
- Communications.
- Identification and use of Fire Service equipment.
- Firefighting media and its application.
- Firefightership skills.
- Building entry and egress methods.
- Hazardous materials.
- Salvage operations.
- Post incident considerations and report writing.

### This course is designed for:

Students who have acquired NFPA Firefighter level I and appropriate Breathing Apparatus competences who wish to advance their skills and knowledge and for existing firefighters who require the NFPA or IFSAC certification.

### Entry Criteria:

Successful completion of a Firefighter I (IFSAC/NFPA) certificated course.

### Presentation and delivery:

Theoretical and practical.

### Languages:

This course can be provided in the English or the Arabic language or in the English language with Arabic support.

### Health and Safety on the Course:

Due to the physical nature and demands of this course, students must be sufficiently fit to undertake strenuous, physical activities. Students must attend with suitable and sufficient Personal Protective Equipment (PPE) that is appropriate for the risks involved in fire and rescue operations. Alternatively, the college can provide PPE to students.

### Course staff and facilities:

Our professional instructors have the required technical knowledge and relevant operational managerial experience.

### Number of candidates:

Minimum - 6

Maximum – 15

Please contact our marketing team to discuss terms for smaller or larger numbers.

### Assessment and Examinations:

Students will be continually assessed throughout the course. We use a range of assessment techniques including a written test, computer based multiple choice test, oral questioning and a practical skills demonstration.

### Certification and Awarding Body:

Upon successful completion of this course, students will receive the International College of Engineering and Management course certificate, which is accredited by the International Fire Service Accreditation Congress (IFSAC) to the National Fire Protection Association (NFPA) Standard 1001 for Fire Fighter II.

### Venue:

The International College of Engineering and Management (ICEM) Muscat Oman.

### Duration:

20 days over 4 weeks from Sunday to Thursday. Daily timings are 0:800 – 15:30.
